Rates of Postage and Conditions of Transmission.

LETTERS—(Inland).

The rates of Postage when prepaid are as follows:—

For a letter not above 1 oz.....	1d.
Do. above 1 oz., but not above 2 oz.....	1½d.
Do. do. 2 oz., do. 4 oz.....	2d.

And so on by ½d. for every additional 2 oz.

A letter posted unpaid is chargeable on delivery with double postage; and a letter posted insufficiently prepaid is chargeable with double the deficiency.

No letter may be above 18 inches in length, 9 inches in width, and 6 inches in depth, unless it be sent to or from a Government office.

If the stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rates.

Payment of postage cannot be made by means of imperfect postage stamps, or of embossed or impressed stamps cut out from envelopes, cards, wrappers, or telegraph message-forms, even although the stamps have not been before used.

Re-directed letters are charged an additional postage for each re-direction, according to the prepaid scale.

All persons sending letters by the post unpaid, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a magistrate.

NEWSPAPERS—(*Inland*).

Inland Newspapers are subject to the following regulations:—

- To have the privilege of passing as a newspaper, the publication must first have been accepted as a Newspaper by the Postmaster-General, and have been placed on a register at the General Post-Office, from which it is liable to be removed, either through the non-renewal of the registration fee, 5s., year by year, or in consequence of any change which may deprive it of the characteristics of a Newspaper. Registration for inland circulation includes registration for transmission abroad.
- For each inland newspaper, whether posted singly or in a packet, the postage, when prepaid, is one halfpenny; but a packet containing two or more registered newspapers is not chargeable with a higher rate of postage than would be chargeable on a book packet of the same weight, viz., one halfpenny for every 2 oz., or fraction of 2 oz.
- A newspaper posted unpaid, or a packet of newspapers posted either unpaid or insufficiently paid, is treated as an unpaid or insufficiently paid book packet of the same weight.
- The postage must be prepaid either by an adhesive stamp or by the use of a stamped wrapper.
- No Newspaper can be sent through the post a second time for the original postage; for each transmission a fresh postage is required.
- Every newspaper must be posted either without a cover, or in a cover entirely open at both ends, so as to admit of easy removal for examination. If this rule be infringed, the newspaper is treated as a letter.
- Every newspaper must be so folded as to admit of the title being readily seen.
- A newspaper, or a packet of newspapers, which contains any inclosure (except supplements) is charged as a letter; unless the inclosure be such as might be sent at the Book rate of postage, and the entire packet be sufficiently prepaid as a Book Packet, in which case it is allowed to pass.
- A newspaper which has any letter, or any communication of the nature of a letter, written in it or upon its cover, will be charged as an unpaid or insufficiently paid letter.
- No packet of newspapers may be above 14lbs. in weight, two feet in length, one foot in width, or one in depth.

 BOOK AND CIRCULAR POST—(*Inland*).

The Postage is one halfpenny for every 2 oz. or part of that weight.

A packet posted wholly unpaid is charged with double the book postage, and if posted partially prepaid, with double the deficiency.

Every book packet must either have no cover, or a cover entirely open at both ends, so as to admit of the contents being easily withdrawn for examination. It may contain any number of separate books or other publications, prints, or maps, and any quantity of paper, parchment, or vellum, either printed, written, plain, or any mixture of the three; together with whatever is necessary for the safe transmission of literary matter, or usually appertains thereto, to the exclusion of letters or any enclosure sealed or otherwise closed against inspection, or any communication of the nature of a letter written in any such packet, or on its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

CIRCULARS, *i.e.*, letters which are intended for transmission in identical terms to several persons, and the whole or the greater part of which is printed, engraved, or lithographed, may also be sent by book post.

No book packet may be above 5lbs. in weight, or 18 inches in length, 9 inches in width, and 6 inches in depth, unless it be sent to or from a Government Office.

POST CARDS—(Inland).

Official Post Cards impressed with a halfpenny stamp; Reply Post Cards impressed with a halfpenny stamp on each portion of them, and private Cards impressed at the Office of Inland Revenue with halfpenny stamps, are available for transmission between places in the United Kingdom only.

The front (or stamped) side is for the address only in addition to the words printed thereon. There must be nothing else written, printed, or otherwise impressed on it. On the reverse side, any communication may be printed or written. Nothing whatever may be attached: nor may the Card be folded, cut, or otherwise altered. If any of these rules be infringed, the Card will be charged 1d. on delivery.

No Card other than one of those issued by the Government, or a private Card impressed with a halfpenny stamp by the Inland Revenue Office will pass under a half-penny stamp, if it bear on it a written communication of the nature of a letter.

* N.B.—(c) denotes that prepayment is *compulsory*, it being in all other cases voluntary; (a) that an *additional charge* is made on delivery; (in) that the registration is *incomplete*, not extending beyond Port of Arrival; and (none) that *no registration* can be effected.

PARCEL POST—(Inland).

Parcels *not exceeding* 11 lbs. in weight are received at any Post Office for transmission between places in the United Kingdom.

In order that a packet may go by Parcel Post, it must be tendered for transmission as a parcel, and should bear the words "Parcel Post,"—which should be clearly written in the left-hand top corner.

The following are the principal conditions and regulations :—

The size allowed for an Inland Postal Parcel is—

Greatest length	3 ft. 6 in.
Greatest length and girth combined	6 ft. 0 in.

For example—

A parcel measuring 3 ft. 6 in. in its longest dimension may measure as much as 2 ft. 6 in. in girth, *i.e.*, round its thickest part; or—

A shorter parcel may be thicker; thus, if it measure no more than 3 ft. in length, it may measure as much as 3 ft. in girth, *i.e.*, round its thickest part.

The rates of Postage are,—for a Parcel,—

Not exceeding 1 lb. in weight	3d.
---	-----

And the charge after 3d. for the first pound will be *three half-pence per lb.* for every pound, or fractional part of a pound, above the first pound.

Parcels must not be posted in a letter box, but must be taken into a Post Office and handed over the counter, and a parcel should not be left until the weight, size, and postage have been tested by the clerk at the counter. Care must be taken that every parcel bears a clear address.

If a packet bearing the words "Parcel Post," or otherwise clearly marked as intended for transmission as a parcel, is not posted in accordance with this regulation, it is treated as a letter or book packet, if it is fully prepaid at the rate proper to either, and is otherwise in accordance with the letter or book post regulations. If such a packet is not fully prepaid at the letter or book post rate, it will be treated as a parcel, and will be charged on delivery with a fine of 1d., together with the deficient postage, if any, at the parcel post rate.

Parcels which bear on the outside any writing or drawing of an indecent or offensive nature, or within which any contents of a like nature may be observed, and parcels containing gunpowder, cartridges, lucifer matches or anything explosive or liable to sudden combustion, bladders containing liquid, live animals, grossly offensive or filthy matter, and anything in a condition likely to injure other parcels, or any officer of the Post Office, are prohibited.

If any such parcel be tendered for posting, it is refused, or, if detected in transit, it is detained.

Parcels containing fish, game, meat, eggs, &c., or knives, or other sharp instruments, can only be sent if so packed as to prevent all risk of injury to other parcels. Liquids or semi-liquids are not accepted unless in bottles or cans securely stoppered; nor powders, unless so packed that they cannot escape in transmission. Bottles or glass in any form can be accepted only when so packed as to be secure from breakage. If a parcel be tendered in a damaged or insecure condition it will be refused. If a parcel in such condition is observed in transit it is, if possible, made secure and sent forward: but, if it cannot be so secured, it is detained.

Parcels known to contain a letter, packet, or parcel intended for delivery at an address other than that borne on the parcel itself are prohibited.

Parcels addressed to a Post Office to be called for, or to a person residing beyond the free postal delivery, are kept three weeks. At the end of one week, if the parcel bears on the outside the sender's name and address, a notice of the fact that the parcel has not been delivered is sent to him.

Parcels addressed to a ship are kept one month.

If, however such a parcel contains perishable matter it is kept only 48 hours; and should it become offensive, it may be disposed of at any time as the Postmaster General may direct.

Parcels addressed to a Post Office "to be called for," and only such parcels, are liable to a demurrage charge at the rate of 1d. a day after they have remained in the Office one clear day, counting as a day the period during which the Office is ordinarily open to the public.

No demurrage is charged on parcels addressed to persons residing outside the limits of the free delivery, or to persons on board ship.

In order to facilitate the return of parcels which cannot be delivered, it is most desirable that the name and address of the sender should appear on the outside of every parcel.

For despatch and delivery of parcel mails see Aberdeen Mail Arrangements.

INSURANCE AND COMPENSATION.

Compensation for the loss and damage of inland parcels will be given according to the following scale, provided the parcel is posted in accordance with the regulations for the time being, that the postage and insurance fee be prepaid and a certificate of posting obtained, bearing thereon a receipt for the insurance, if such has been effected, *viz.* :—

I.—Where no fee except postage is paid, the Postmaster-General will give compensation to an amount not exceeding.....£1

II.—Where in addition to the postage an insurance fee of 1*d.* is paid, the Postmaster-General will give compensation to an amount not exceeding....£5

* The delivery of Parcels in Canada is confined to certain selected offices, a List of which can be consulted at any Post Office.

(2.) The dimensions are the same as for the Inland Parcel Post, except for Jamaica, the dimensions for which are—length 2 feet, girth 4 feet; and for Belgium, Germany, and Norway—2 feet in any direction.

Dutiable articles are liable to charge for Customs duty.

N.B.—Parcels exceeding the limits of value, weight, or size prescribed by the Post Office may continue to be forwarded as heretofore by the Agency of the Peninsular and Oriental Steam Navigation Company, 122 Leadenhall street, E.C.

REGISTRATION—(Inland and Foreign).

The fee for registering a letter, newspaper, or book-packet, passing by post between any two places in the United Kingdom, is twopence.

The fee chargeable for registration to places abroad will be found in the column headed "Registration Fee," in the Table of Colonial and Foreign postage.

No letter or other postal packet addressed to initials or to a fictitious name can be registered; nor can any letter be accepted for registration, unless the enclosure can be securely placed so as not to move about, and be covered by a proper and well fastened envelope.

Registered letters, &c., must be prepaid as regards both postage and registration fee; except official letters for Government Offices in London, Dublin, or Edinburgh.

Every letter to be registered must be given to an Agent of the Post-Office and a receipt obtained for it, and should on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box, it will, if directed to any place in the United Kingdom, be liable to a registration fee of 8d. instead of the ordinary fee of 2d.

INSURANCE AND COMPENSATION.

Subject to the general conditions for Registration, compensation for the loss and damage of Inland Registered Letters will be given according to the following scale, provided that a certificate of posting, bearing thereon a receipt for the insurance fee (which must be prepaid) be obtained, viz. :—

Post-Office Telegraphs.

TARIFF (INLAND).

The charge for Telegrams throughout the United Kingdom is 6*d.* for the first 12 words, and $\frac{1}{2}$ *d.* for each additional word. Addresses are charged for.

Telegrams may be repeated at the request of the sender, if he desires to adopt this extra security against risk of error, by being signalled back from each office at which they are received to the office from which they are forwarded. The charge for repetition is one half the ordinary tariff; a fraction of a half-penny being reckoned as a half-penny.

The cost of a reply not exceeding forty-eight words may be prepaid.

Copies of a Telegram, directed to more than one firm or person in the same free delivery, London excepted, will be delivered separately at an additional charge of twopence per copy.

Figures are counted at the rate of five figures to a word. Fractions are counted according to the number of figures employed, one figure being counted for the mark of division, thus— $\frac{1}{2}$ counts as one word, and 109 $\frac{7}{8}$ as two.

PORTERAGE.

The sums charged for the transmission of Telegrams cover the costs of delivery by special Foot Messenger within the limits of one mile of the Terminal Telegraph Office, or within the limits of the Town Postal Delivery of that Office, when it is a Head Office, and the Town Postal Delivery extends for more than a mile from it.

When the addressee does not reside within the above described limits, and the sender desires to have his telegram delivered by special Foot Messenger, the charge will be sixpence per double mile or any part thereof. A sum of one shilling per double mile will be charged for the delivery of Telegrams by Cab, Fly, or Horse express.

When the addressee does not reside within the above described limits, and sender does not wish to incur the cost of special delivery, his Telegram may be delivered free of extra charge by the ordinary postal delivery next following on the arrival of his Telegram at the Terminal Telegraph Office.

REGISTERED ADDRESSES.

Any person may register an abbreviated or arbitrary address on payment of a fee of £1 1*s.* a year, dating from the day of registration. The address must consist of not less than two words, one of which is to be the town or place of delivery.

Prudential Assurance Company, Limited.

Chief Office: HOLBORN BARS, LONDON.

Summary of the Reports presented at the Thirty-eighth Annual Meeting held on 3rd March, 1887.

In the Ordinary Branch the number of Policies issued during the year was 25,567, assuring the sum of £2,715,429, and producing a New Annual Premium Income of £125,604. The Premiums of the year were £396,940, being an increase of £93,665 over the year 1885. The claims of the year amounted to £135,361.

The rate of expenditure of the Branch was little more than 10 per cent. on the Premium Income. The number of Policies in force was 85,089.

An alteration has been made in the Regulations of the Company, empowering the Directors in future to pay an interim bonus upon all Participating Policies on their becoming Claims, in respect of any Premiums paid subsequent to the last distribution of profits.

The Premiums received during the year in the Industrial Branch were £2,911,295, being an increase of £116,773. The claims of the year amounted to £1,123,428. The number of deaths was 135,851. The rate of expenditure of the Branch shows a slight reduction. The number of Policies in force, including 58,099 Free Policies, was 7,111,828.

A supplement to this Report will also be submitted, showing how the assets of the Company are invested.

The tables of the Industrial Branch have been again revised, and additional advantages are secured to the Assured which the

Directors believe will yet further enhance the popularity of the Company.

SUMMARY OF THE QUINQUENNIAL REPORT.

For the period ending 31st December, 1886.

In the Ordinary Branch the Annual Premium Income has increased from £142,732 to £407,360. The Assurance Fund has grown from £744,583 to £1,764,600.

In the Industrial Branch the Annual Premium Income has increased from £2,051,024 to £3,065,551. The Assurance Fund has grown from £1,721,493 to £4,937,003.

The Total Assets of the Company have grown from £2,580,002 to £6,811,954, being an increase of £4,231,952 in the five years under inspection. The rate of expenditure during the Quinquennium in the Ordinary Branch has remained nearly stationary, at little more than 10 per cent. A reduction of $7\frac{1}{2}$ per cent. has been effected in the expenses of the Industrial Branch.

It will be seen from Mr. DEWEY's Report that the average duration of all the Policies in the Industrial Branch is now no less than five and a-half years, a satisfactory indication of the success which is attending the efforts of the Directors to increase the duration of the assurances.

Extract from Mr. A. H. Bailey's Report.

Having from time to time been consulted as to the principles upon which the valuations should be made of the outstanding liabilities of your Company on the 31st December last, I have now examined the results of those valuations, the processes employed in obtaining and checking the particulars from the records, and the methods adopted to insure accuracy in the calculations.

Some notion may be formed of the magnitude of the work when it is stated that the number of assurances in force, exclusive of annuity grants is 7,196,917 ; so that if each policy were on a different life, which is probably not very far from the truth, the lives of 19.6 per cent, or very nearly one-fifth of the entire population of Great Britain and Ireland, are assured in this Company.

The business is carried on under two distinct branches, the "Ordinary" and the "Industrial". In the former, the premiums are payable annually, half-yearly, or quarterly ; and the terms and conditions resemble those of the majority of the Life Assurance Companies of the country. In the latter branch the rates are higher, because, without exception, the premiums are payable weekly, an arrangement which the ordinary Companies will not adopt on account of the heavy expense and trouble of collection, but which experience seems to show is the only way whereby the wage-earning portion of the community can be reached.

For ten years the two Branches have been conducted independently of each other, as if they were distinct societies ; separate

accounts being kept, and separate investments made for each. Being now, however, practically worked by the same agents, the public select whichever best suits their convenience, and consequently the distinction between the character of the business of the two branches is becoming less. As an instance of this it is noticeable that while the average amount assured by each policy in the "Ordinary" Branch has diminished since the last valuation, being now £116 against the £137 five years ago; in the Industrial Branch the average amount has slightly increased, and is now £9 8s.

ORDINARY BRANCH.—The growth of this Branch has been very remarkable. The premium income from the assurances is £406,852, having nearly trebled in the quinquennium, and being surpassed by only four other Life Assurance Companies in the United Kingdom. The basis upon which the valuation of the liabilities has been made is explained in Mr. Hughes' report. It may be shortly described as follows:—The past experience of Assured and Annuitant lives has been adopted for the rates of mortality; 3 per cent. for the rate of interest; and 22·7 per cent. of the premium income, which is the whole of what is called the loading, has been reserved for future expenses, profits, and contingencies. Of the ample sufficiency of this reserve no doubt can be entertained, especially as it has now been resolved that the whole expenses of this Branch shall be limited to 10 per cent. of the premium income.

INDUSTRIAL BRANCH.—In this Branch the Premium Income has now reached the enormous total of £3,065,551, payable in weekly premiums averaging about twopence each. The ages of the lives assured vary from 1 year to upwards of 100, fourteen centenarians being found upon the registers. The females out-number the males in the proportion of 1,075 to 1,000, an excess somewhat above that of the general population, whereas in the ordinary Companies the number of male lives assured is found to be about eight times that of the females. A large number of the policies in force have been effected on the lives of children. And, if death occur during the first year of assurance, the contract provides that, with some exceptions, a deduction shall be made from the sum assured.

From these circumstances some modifications in the principals of valuation adopted for the Ordinary Branch become necessary. These are explained by Mr. DEWEY in his report, with which I concur. For instance, the table of mortality employed for the Ordinary Branch represents the experience of adult male lives only, children being altogether omitted. For the Industrial Branch, therefore, Farr's English Life tables have been used, and separate valuations made for the male and female risks, the mortality of the two sexes being different. Again, the rate of mortality of children, unlike that of adults, diminishes from year to year up to a certain age. And therefore the risks on the lives of children not exceeding ten years of age, and those under all Policies granted during last year, have been treated as short term assurances, for which a nominal reserve only is necessary. With these exceptions, a valuation on

ADVERTISEMENTS.

the same principles as in the Ordinary Branch has been made of all the outstanding Policies.

These facts and figures speak for themselves, and it is hardly necessary to add how eminently satisfactory the results of this elaborate investigation must be to all who are interested in the welfare of the Company.

Extract from the Report of Mr. W. HUGHES, Actuary of the Ordinary Branch.

The Valuation is as before on the net premium system, the whole of the loading or difference between the premiums payable and the risk premiums being reserved as a provision for future expenses and profit. This loading amounts to £91,078 per annum. The number of Policies in force at 31st December last was 85,089, assuring with Bonus £10,226,238, and producing an annual premium income of £407,360, 8s. Of this amount £13,726 is reassured at an annual cost of £508 7s.

A feature worthy of note is the large proportion of Endowment Assurances lately effected. At the last Valuation, 1881, these Policies formed 16 per cent. of the whole number in force; on the 31st December, 1886, there were 31,120 of these Policies, being no less than 36 per cent. of the whole number of Assurances.

The net results of the Valuation are as follows: Life Assurance Fund, 31st December, 1886, £1,764,600; Reserve for Life Assurance and Annuity Contracts, £1,457,873.

Extract from the Report of Mr. T. C. DEWEY, Actuary of the Industrial Branch.

The Policies in existence on the 31st December, 1886 (the date of Valuation), were 7,111,828 in number, assuring the sum of £66,689,111, and producing a weekly income from Premiums of £58,953, and an Annual Income of £3,065,551. The number of Free or Paid-up Policies which have been granted in lieu of Discontinued Policies is now 58,099. It will be seen that the average amount assured by each Policy is £9 8s., and that the average weekly premium is twopence.

The experience of the Quinquennium shows that the business is yearly becoming of a more stable character, for notwithstanding the large influx of new business during that period, the average duration of the Policies now in existence is about five and a half years.

I believe that as Industrial Assurance becomes better appreciated it will assume an even more permanent character, and that the difference in this respect between Ordinary and Industrial Policies will disappear. I can see no reason, therefore, why different principles should now be adopted in the valuation of the two classes of assurances, and I have consequently valued pure

ADVERTISEMENTS.

premiums only, reserving the whole of the loading, distinguishing male from female lives. The proportion of the premium reserved is $43\frac{1}{2}$ per cent.

The mortality of this Branch having been carefully recorded for many years, I find that the English Life Table (No. 3) most closely accords with our experience, and I have therefore adopted that Table for every description of assurance. In all calculations I have assumed that £3 per cent. per annum will be realised on the investments.

The result of the Valuation is as follows: Present value of sums assured, £32,760,509; present value of future pure premiums, £28,288,658. Net liability, £4,471,851.

It may be contended that the principles which are adopted in the valuation of Ordinary assurances are not applicable to Industrial risks, but it must be a source of the highest gratification to you and to everyone connected with the Company to feel that the business of this Branch will now bear a test so severe and one hitherto unknown in the history of Industrial Assurance.

Policies are now issued upon the lives of Miners, Mariners, and Soldiers at the ordinary rates.

Mariners. No extra premium will be required from Fishermen or Seamen employed in British ships sailing from British ports to any part of the world.

Soldiers. Officers and men of the British Army will not be required to pay any extra premium for residence at any military station in any part of the world in time of peace.

The last Annual and Valuation Reports, Prospectuses, Proposal forms, &c., can be obtained upon application to

THE ORIGINAL SOCIETY—ESTABLISHED 1840.

THE GUARANTEE SOCIETY

No. 19 BIRCHIN LANE, CORNHILL, LONDON, E.C.

Empowered by Special Act of Parliament, 5 Victoria—Session 1842.

Suretiship undertaken for the Fidelity of Persons in Situations of Trust, on the yearly payment of a small sum at a stipulated rate per centum.

CAPITAL £100,000 FULLY PAID UP AND INVESTED.

This Society was the first Public Company established in Great Britain to obviate the inconvenience and defects of Suretiship by Private Bondsmen, its Security being adopted by

HER MAJESTY'S GOVERNMENT,

BY

The Bank of England, the Bank of Ireland,
The Council of the Duchy of Cornwall,
The Secretary of State in Council for India,
The Court of Chancery, the Local Government Board,
The Corporation of the City of London,
The Principal Bankers, Railway Companies, Public Companies, and
Commercial Firms in the United Kingdom.

The Society, by Special Act of Parliament, is expressly authorised to give security for persons appointed to any office or employment, or Commission, Civil or Military, in any Public Department, or to any office or employment of Public Trust under the Crown.

PERSONS of the highest character and qualifications frequently decline valuable appointments, either from an unwillingness to place themselves and their friends under so serious an obligation, or the great difficulty of obtaining satisfactory Sureties; but the Institution of this Society removes these difficulties

The GUARANTEE SOCIETY undertakes, for a small yearly premium, to make good to the employer ANY LOSS BY THE FRAUD OR DISHONESTY of the person employed, according to the amount specified in the bond, and therefore obviates the necessity for Private Sureties, as well as the evils arising therefrom, which often prove as prejudicial to the real interests of the employer as to the person finding the guarantee of Private Friends.

Employers, by the existence of the Society, are assured of the continued solvency of the Surety for the person employed, and the security thus becomes a permanent one.

Friends and Relatives are relieved of the fear of those pecuniary losses to which persons are exposed who become responsible for the acts of others.

All necessary information can be had of the Secretary and Agents.

Rates according to the nature of the Employment on the amount of the Security required.

Security granted on behalf of Receivers and Official Liquidators, under the Court of Chancery, on advantageous terms.
